MAKE YOUR OWN VIDEOS

PLUGS INTO ANY TV / INTERNET-ENABLED FOR SONG DOWNLOADS

karaokevideomaker

Making music videos has never been easier

This unique combination of karaoke player and video camera brings out the performer in everyone. Your customers can dance and sing while they see themselves and the lyrics on the TV at the same time. It's simple to set-up, connects to any TV, and singers can easily connect to their VCR to record their performance. And with IVL's patented On-Key vocal effects, they'll sound like pros.

No wires to trip over

Videomaker comes with a wireless belt-pack remote control that connects to a headset mic. Your customers can sing and dance hands-free like their favorite pop stars

Expand your song library

Videomaker is available with a variety of memory capacities and can hold up to 150 songs (depending on song size). It can be loaded with or without an embedded song list. IVL has a large selection of fully licensed On-Key compatible content at www.onkeysongs.com. IVL can also provide the software and documentation necessary for 3rd party content creation.

professional onkey™ vocal effects

onkey™ pitch correction:

Automatically corrects your pitch so you never sing out of tune.

onkey™ scoring:

Rates your performance on timing, and pitch - and gives you a percentage score.

onkey™ voice transformation:

Transform your voice. Kids can sound like adults, men like women and vice versa. Sound like an alien or use the pitch corrected robot techno effect to get the latest pop sound.

spatial effects:

5 pro-quality reverb settings simulate the acoustics of singing in the shower, in a house, on stage, in a stadium, and on a mountaintop.

duet:

Doubles your voice so it sounds like you're singing with a partner.

harmony:

Duplicates your voice and shifts the pitch up or down, so you sing in perfect harmony.

tempo&key control:

Change the speed or key of the song so it fits within your comfortable vocal range, without reducing the quality of the music.
